### **COURSE DESCRIPTION:**

This primer course is designed for general surgeons and breast surgeons who have not performed oncoplastic surgery. The morning lectures will provide information on beginner level strategies and techniques for delivering oncoplastic breast care related to breast conservation.

The afternoon session will provide a hands-on surgical cadaver skills lab for supervised practice of procedures taught in the morning lectures. Attendees will be assigned to stations to practice skin markings, cavity closure with glandular displacement, aesthetic scar placement, crescent mastopexy, inframammary fold crescent, and the donut therapeutic mastopexy. Attendees will be provided with required reading material prior to the course.

### **COURSE OBJECTIVES:**

At the conclusion of this course, participants should be able to:

- Apply beginner level oncoplastic techniques and strategies in their practice
- Select the most appropriate oncoplastic procedures for individual patients
- Demonstrate familiarity with the latest technology to achieve optimal outcomes in oncoplastic surgery

### **CME Information:**

The American Society of Breast Surgeons designates this live activity for a maximum of 8.5 *AMA PRA Category 1 Credits*<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

### **MOC Information:**

This activity provides 8.5 *AMA PRA Category 1 Credits*<sup>™</sup> toward Part 2 of the American Board of Surgery Maintenance of Certification Program. Attendees must pass the applicable post-test with a score of 75% or higher in order to earn MOC credit.
